Note for Teachers

These slides are designed to provide decoding practice for all the words in Mrs. Hazel Loring's 1980 *Reading Made Easy with Blend Phonics for First Grade*. Mrs. Elizabeth Brown wrote the stories. Mr. Donald L. Potter typed the Power Point slides that were used to create this PDF document. The program teaches the forty-four English speech sounds (phonemes) and all the major spelling patterns needed for fluent reading and accurate spelling. The comprehension questions help students develop their ability to pay attention while reading. The oral spelling exercises help reinforce the spelling patterns taught in each lesson.
